

Our Greatest Riches!

There is an old saying that goes like this; "The best things in life are free!" There's a lot of truth in that. Some people, however, believe that the best things in life are expensive or perhaps elusive. Recently, I saw a saying that made me smile and think. It said, "The best things in life are not things!" What a great way to say it! The value of family, friends, and faith is priceless which points us to the realization that what matters most in life is all wrapped up in people and the Lord.

Solomon was well qualified to speak about material things because his wisdom surpassed all people of the earth in riches and wisdom. His advice to us is not to wear ourselves out to gain wealth and worry about it. Because, once you obtain wealth, that's all you will care about. Instead, apply your heart to the Word of God and your ear to knowledge of salvation. Then you will have a future of hope and happiness.

The best things in life are not things we hold in our hand, but in our hearts. Our greatest riches is our family, friends and our faith. May we always thank the Good Lord for the gifts He has given us!!!

together through prayer and service,

Deacon Mike
